

# Circle Developer Credits

## **Terms & Conditions**

Last updated: April 17, 2024

By using the Credits, and related materials made available to you through the Circle Developer Platform, you agree to be bound by these Terms and all other terms, policies, and guidelines applicable to your use:

You are an administrator for your organization's Developer account and are authorized to use the Credits on your organization's behalf.

Your use of Credits remain subject to Circle's Developer Terms of Use and other Circle policies incorporated by reference therein, including but not limited to the [Developer Acceptable Use Policy](#).

The Credits may only be used for mainnet Circle Web3 Services on certain supported blockchains. In the event you receive Credits during testnet activities, you must upgrade to mainnet before applying the Credits.

The Credits may only be applied to a single Developer account.

The Credits may not be transferred, sold, licensed, assigned, or exchanged in any way.

Once expired, the Credits are void and are no longer available for your use.

Credits may not be joined with other Credits; all Credits must be fully depleted before applying additional Credits to a Developer account.

Circle may change these terms and conditions at its sole discretion, any time, and without notice. Any misuse of Credits, non-compliance with these terms and conditions, or other violations of the Circle Developer Terms may result in the suspension or termination of your Circle Developer account.
